# Introduction

**A**re you a woman seeking empowerment, inspiration, and global connections? The Duchess International Women's Day Conference is a premier annual event organised by Duchess International Magazine under the auspices of Duchess Africa. It is dedicated to fostering equity, leadership, and collaboration among African women across the globe.

The conference provides a platform for thought leadership, networking, and collaboration on critical issues such as leadership, economic empowerment, climate action, and cultural preservation. Attendees participate in various sessions, including keynote speeches, panel discussions, and hands-on workshops designed to foster meaningful connections and drive positive change. The event also emphasises unity, action, and sustainable progress, with the aim of empowering African women to achieve their full potential and contribute to global progress.

In 2023, we gathered in Kigali, Rwanda, under the theme "Embrace Equity By Empowering Her", exploring key sectors like trade, health, culture, and tourism. The conference featured expert speakers, interactive panels, and transformative networking opportunities.

The 2024 edition took place in Nairobi, Kenya, uniting women from across the globe for impactful discussions, a tree-planting initiative symbolising legacy and resilience, and dynamic sessions aimed at inspiring inclusion.

The 2025 edition took place in Dakar, Senegal, where women from all walks of life across the globe were brought together under the theme: Accelerate Action. We took a trip down memory lane at Gorée Island and the African Renaissance Monument, we organised our usual tree-planting exercise at Diamniadio, on the outskirts of Dakar, Senegal. Dynamic sessions focused on accelerating action were held alongside award presentations to trailblazing women across different fields.
